## Steamtec

## Steamtec

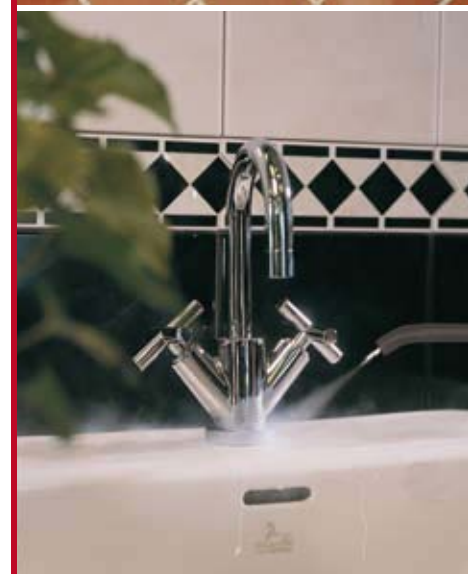

There is very little grime that can survive our range of steam cleaners.

Using steam is the most efficient way to loosen and remove dirt and stains from inaccessible places such as behind radiators, on carpets and furniture. The steamer is ideal for removing deposits and disinfecting the kitchen and bathroom. What's more, steam is an efficient way of cleaning windows, and other exposed areas.

- Efficient due to high steam pressure
- Short heating time
- Ironing function on Steamtec 5 IH
- Stainless steel boiler
- Big rear wheels and front caster
- Steam control in handle on Steamtec 520
- Refilling is possible while working on Steamtec 5IH
- Large accessory range as standard
- Safety - fulfils all standards
- Compact design, easy storage

Steamtec 5 IH
